

Honda Cars India Limited (HCIL)

Honda Cars India Ltd. (HCIL), a leading manufacturer of premium cars in India, was established in December 1995 with a commitment to provide Honda's passenger car models and technologies, to the Indian customers. HCIL's corporate office is based in Greater Noida, UP and its state-of-the-art manufacturing facility is located at Tapukara, District. Alwar, Rajasthan.

Business challenge

- Multiple partner managing the current SAP HEC creating a lot of challenge
- HCIL is looking for a secure and scalable infrastructure to avoid upfront investment for 3-year tenure
- HCIL was looking for a partner for end-to-end solution, from design, build, migrate, upgrade, monitor & manage the infrastructure and SAP Basis.

Automotive

Transformation

Kyndryl as a partner with HCIL collaborated with AWS and helped address all the business challenges covering design, migration and implementation.

Kyndryl helped the migration of HCIL SAP workloads to AWS cloud with minimal business disruption.

Kyndryl is providing managed application as a service on AWS using cloud native technologies, ensuring faster time to value, a higher level of availability, and greater control of its cloud costs while maintaining options to unlock the full benefits of AWS Cloud as it progresses its cloud transformation journey.

Results

- Better visibility to its cloud resource utilization, costs and IT operations as the company migrates from on-premises data centers to public cloud
- A common infrastructure management and governance platform for its Disaster Recovery and Datacentre.

"We needed better visibility and availability of critical workloads like HR applications, spare parts, and sales inventories to meet growing business requirements without any disruptions. Kyndryl brought in their deep expertise on SAP and AWS cloud migration, their global size and scale to manage such complex and critical workloads."
