SAP on Azure: Migrate, Modernize and Secure

Customer challenges

Many organizations struggle to modernize and transform SAP® and related applications. Kyndryl offers end-to-end services to support seamless cloud transformations to Azure, delivering innovative solutions for your SAP ecosystem.

- Simplify operations for SAP and non-SAP applications on Azure, bridging skills gaps and enabling a focus on innovation.
- Customized roadmaps to optimize SAP systems and drive efficiency.
- Streamlined transitions to Azure with minimal downtime, powered by automation and migration tools.
- Enhanced security, resiliency, and visibility to unlock operational data and accelerate productivity.
Solution highlights

With deep SAP and Microsoft expertise and over 30 years of experience managing complex SAP solutions, Kyndryl offers a proven service design to build, manage and deliver agile, scalable, efficient and secure solutions. We help customers simplify operations for SAP and non-SAP applications and streamline transitions to Azure.

As an SAP customer, RISE with SAP services delivery partner and participant in Microsoft's RISE with SAP migration program, Kyndryl offers comprehensive advisory, implementation and managed services to ensure optimal deployment of SAP solutions on Azure.

By leveraging industry-focused templates and unique accelerators like Kyndryl Data Transformation Suite for SAP Solutions to transform and migrate data from SAP and non-SAP sources, Kyndryl can help businesses harness the full power of SAP ecosystems and accelerate transitions to Azure.

Customer benefits

1 Innovative customer experiences by embracing SAP's clean core strategy for cloud-enabled workloads on Azure

2 Improved business insights by harnessing Azure's data and analytics capabilities

3 Enhanced efficiency, agility, responsiveness, and resiliency by modernizing SAP and related applications

4 Seamless integrations with SAP's vast partner ecosystem solutions, including Microsoft® 365 and Power Platform

Why Kyndryl?
