

## Kyndryl Services for Oracle Database@Azure

### Customer challenges

Modern enterprises continuously deploy new databases into production, with new applications developed and released at a rapid pace. Over time, companies may end up with a large inventory of Oracle databases and related issues. They require flexible strategies to predict database migration costs, as well as the expertise to:

1. Maintain multiple versions and database deployment models
2. Manage operational costs, hardware, operating systems and optimize network performance with minimal latency
3. Keep up with the latest Oracle skills and experience and acquire Exadata skills

### Motivating factors

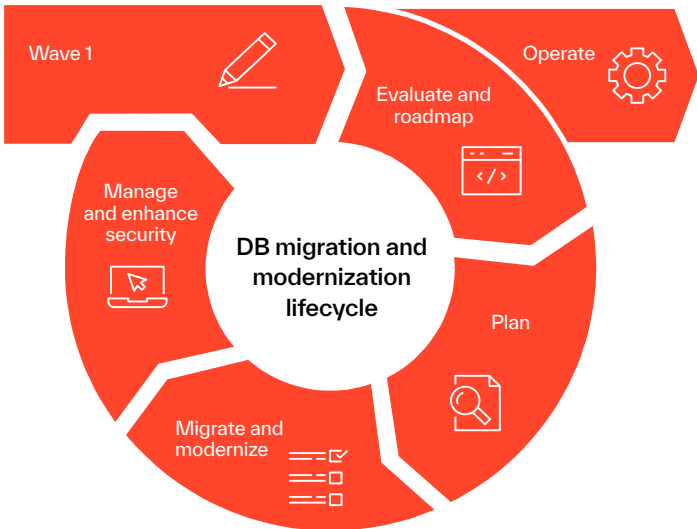

As businesses grow and their database needs rapidly evolve, they often prioritize expansion initiatives over operational improvements. This shift creates several critical demands driven by:

1. Aging infrastructure and outdated systems that are expensive to refresh and upgrade on-premises
2. Oracle database consolidation from on-premises to cloud and simplified management
3. Multi-vendor support, disconnected systems and complicated integration that is difficult to maintain

## Solution highlights

Kyndryl's modernization services are designed with advanced security capabilities to swiftly migrate Oracle databases to Azure. Kyndryl Services for Oracle Database@Azure helps your Oracle database migration services be as effective, smart and flexible as your business demands.

## Migration path for Oracle databases to Microsoft® Azure®

### Evaluate and roadmap:

Strategy and planning for Oracle database migration and modernization, cost optimization, cloud readiness and migration planning

### Migrate and modernize:

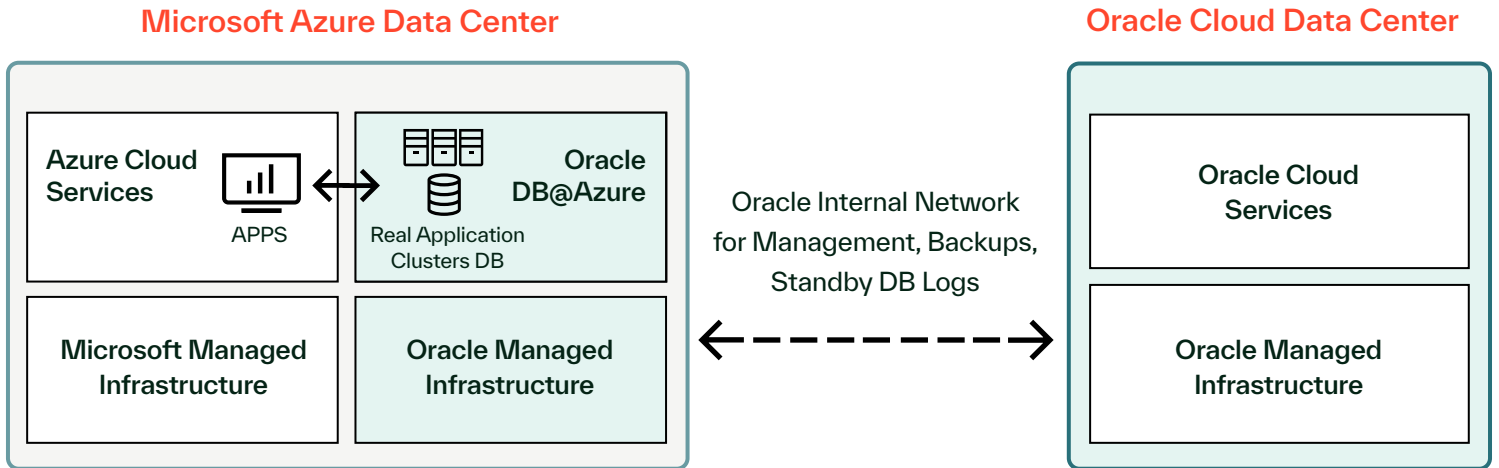

Detailed discovery, planning and execution of modernization patterns, automations, testing, validation and handovers

### Manage and enhance security:

Maintain, remediate and upgrade critical database workloads in highly resilient environments to minimize business disruptions

# Approach

## Customer benefits

By engaging Kyndryl Services for Oracle Database@Azure to migrate, modernize and manage your Oracle databases and applications on Azure, you can run the right workload on the right platform. This helps you achieve:

1. Reduced licensing costs through optimized hardware and higher consolidation density
2. Exceptionally high levels of Oracle database performance, scale, security and availability
3. Unique zero downtime data protection capabilities and autonomous backup and recovery validation
4. Single bill, MACC applicable, with simplified operations and no extraneous charges
5. Native integration between Azure and Oracle databases

## Kyndryl credentials

Kyndryl brings talent, expertise, and a proven service design to help you co-create solutions that deliver innovative customer experiences:

### Azure expertise:

With over 26,000 Microsoft certifications, Kyndryl brings significant experience and expertise to design, build and manage mission-critical, complex systems on Azure.

### Oracle experience:

Kyndryl has been an Oracle partner for over 30 years. Our consultants have decades of experience driving success in customers' Oracle projects around the world.

### Innovation at scale:

As the world's largest IT infrastructure services provider, Kyndryl offers the tools, IP and partnerships to adapt to customers' needs across industries.

Kyndryl provides ongoing managed services for customer environments on Azure. We deliver a full range of services to manage Oracle database ecosystem issues, such as Oracle workload management, cloud migrations, cyber resilience, data integrations and data and artificial intelligence services.

## Why Kyndryl?

Kyndryl has deep expertise in designing, running, and managing the most modern, efficient and reliable technology infrastructure that the world depends on every day. We design, build, manage and modernize the world's critical technology systems. As the world's largest provider of IT infrastructure services, Kyndryl is committed to the health and continuous improvement of the vital systems at the heart of the digital economy. With our partners and thousands of customers worldwide, we co-create solutions to help enterprises reach their peak digital performance.
