Power Platform App Development Services

Customer challenges

As organizations and their customers adopt new application development platforms, they face several challenges in aligning platform capabilities with business goals. Common challenges include:

- Difficulty validating low-code platform suitability
- Lack of flexible, reusable methods with reference architectures and integrated tools
- Need for consistent interfaces, naming standards, and best practices for scalability and availability
- Scaling skilled resources across hybrid environments
- Inability to adjust IT capacity quickly and securely to meet demands

Solution highlights

Kyndryl uses Microsoft Power Platform to design and develop new applications that accelerate business outcomes. This solution:

- Focuses on rapid application development using Microsoft Power Platform's low-code capabilities
- Helps define the future application architecture and technology stack to support scalable solutions
- Establishes a clear development strategy and implementation approach aligned with business objectives

Customer benefits

1 Accelerated development cycles to quickly deploy new features and integrate emerging technologies, fostering innovation

2 Reduced capital expenditure utilizing pay-as-you-go model to lower costs

3 Tailor solutions to meet client needs with repeatable results and competitive pricing

4 Lower maintenance costs with better automation, comprehensive security, and ease of integration

5 Automatic software updates to ensure applications are always up to date with the latest features and security patches
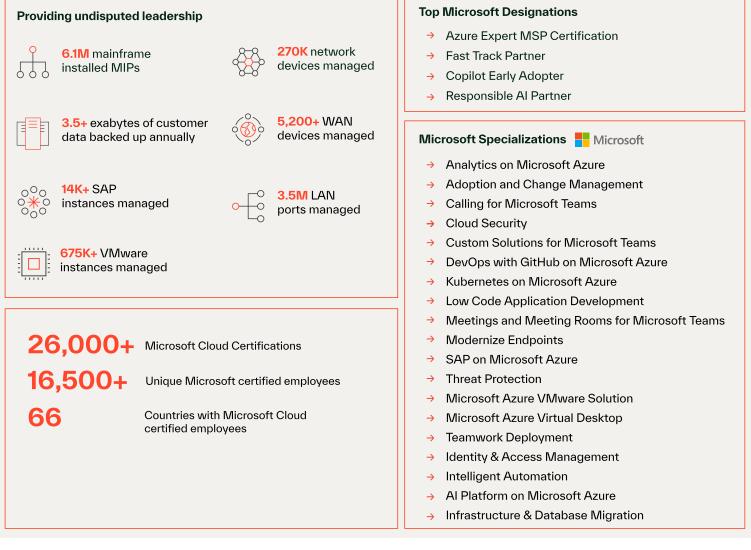

Why Kyndryl?

Kyndryl runs and transforms the systems that the world depends on every day, serving thousands of enterprises including 60% of the Fortune 500 in more than 60 countries.

Kyndryl and Microsoft advantage

Kyndryl and Microsoft power customer progress. With the brightest minds and the right technology and services, our partnership meets our customers where they are and takes them where they want to go on their digital transformation journey.

Providing undisputed leadership

6.1M mainframe installed MIPs

270K network devices managed

3.5+ exabytes of customer data backed up annually

5,200+ WAN devices managed

14K+ SAP instances managed

3.5M LAN ports managed

675K+ VMware instances managed

26,000+ Microsoft Cloud Certifications

16,500+ Unique Microsoft certified employees

66 Countries with Microsoft Cloud certified employees

Top Microsoft Designations

→ Azure Expert MSP Certification
→ Fast Track Partner
→ Copilot Early Adopter
→ Responsible AI Partner

Microsoft Specializations

→ Analytics on Microsoft Azure
→ Adoption and Change Management
→ Calling for Microsoft Teams
→ Cloud Security
→ Custom Solutions for Microsoft Teams
→ DevOps with GitHub on Microsoft Azure
→ Kubernetes on Microsoft Azure
→ Low Code Application Development
→ Meetings and Meeting Rooms for Microsoft Teams
→ Modernize Endpoints
→ SAP on Microsoft Azure
→ Threat Protection
→ Microsoft Azure VMware Solution
→ Microsoft Azure Virtual Desktop
→ Teamwork Deployment
→ Identity & Access Management
